BIOBASED HYDRAULIC OIL, ISO 32-68

Safe for the Railroad—Safe for the Environment

ECORail™ Products by Railmark Track Works

Railmark Track Works presents its ECORail™ brand of biobased rail lubricants and industrial hydraulic oils featuring superior lubricity, resulting in less friction which translates to less heat and less wear.

Railmark biobased railroad lubricants and oils include Universal Switch Lubricants, Frigid Climate Switch Lubricants, Top of Rail Friction Modifiers, Solid Stick Lubricants, ISO 32, ISO 46 & ISO 68 Hydraulic Oils, and Universal Tractor Hydraulic Fluids.

Railmark has been offering its biobased rail lubricants to railroads and rail users along with Railmark's customized lubrication maintenance programs since 2012.

PRODUCT STRENGTHS

- Premium quality biobased hydraulic oils, exceeding any others on the market with superior lubricity. Protects against wear and is virtually biodegradable.
- Meets U.S. Environmental Protection Agency's (EPA) "Environmental Preferable Purchasing (EPP)" criteria and is a U.S. Department of Agriculture (USDA) "BioPreferred™" product and is "Biobased Labeled".
- Manufactured in the USA from renewable US-grown crop-based oils and a lithium-based thickener. Supports the US farmer and US small business.
- Higher Viscosity Index. Its base oils are 2x higher (over 200) than petroleum-based oils (95), providing more stable viscosity at different temperatures and a wider range of operation.
- Outperforms many synthetics based on tests and usage and it is less expensive.
- Due to their polarity, biobased molecules bond and adhere to metal surfaces better than petroleum-based oils and greases.
- Higher flash point than mineral greases for increased safety.
- Contains no heavy metals, no chlorine and no harsh odors. Safer for both your workers and the environment versus petroleum-based greases and oils.
