

ECORAIL SWITCH LUBRICANT PRODUCT APPLICATORS

BIOBASED RAILROAD LUBRICANTS

Safe for the Railroad - Safe for the

ECORail™ Products by Railmark Track

Railmark Track Works presents its ECORail™ brand of switch lubricant manual applicators. These spot sprayers come in a variety of sizes and styles, ranging from small shoulder carried units to truck bed or trailer systems. The sprayers are specially designed to provide controlled application of ECORail biobased switch lubricants.

ECORail biobased railroad lubricants and fluids include Universal Switch Lubricants, Frigid Climate Switch Lubricants, Rail Curve Greases, Top of Rail Friction Compounds, Solid Stick Lubricants, ISO 32 & ISO 46 Hydraulic Oils, and Universal Tractor Hydraulic Fluids.

Railmark has been offering its ECORail biobased switch lubricants and spray applicators to railroads and rail users since 2012.
